Biology Department Waste Removal

| Container | Contents | Removal |
|-----------------------------------|---------------------------------------|--------------------------------------|
| Sharps: red, plastic boxes | Syringes, needles, razor blades, | Contracted; Remove when 2/3 to 3/4 |
| (in each lab) | contaminated slides and cover | full or after 1 year of use. Date |
| | slips | should be on side of container. See |
| | | Dr. Gabel |
| Biohazards: cardboard | Animal carcasses, dissection | Contracted; Contact Dr. Gabel |
| boxes lined with red bags | specimens, human blood, and | |
| (in Thomas Hall 126A) | bodily fluids | |
| Hazardous Chemical | Chemicals that must be | Contracted; Each lab is responsible |
| Waste: bins labeled | removed according to EPA | for maintaining its own hazardous |
| "satellite accumulation | regulations (ask your professor | chemical waste inventory and |
| area" (under the hood in | if you use any of these) – | collection. The waste must be kept |
| most labs) | flammable, corrosive, reactive, | in SAA bins in hoods in that lab |
| | or EPA listed. | where it is generated in sealed, |
| | | labeled containers until pickup. |
| Plastic Lab Waste: white, | gloves, plastic pipettes, petri | When the box is ¾ full, remove the |
| cardboard boxes (in each | dishes, 15 and 50 mL tubes, | bag and bring to Dr. Gabel for |
| lab) | micro-centrifuge tubes, etc. | autoclaving. Re-use the box by |
| | | lining with 2 autoclave bags |
| | *Please be sure <u>NOT</u> to include | (located on the bottom shelf of the |
| | anything that can't be | cart near the autoclave in Thomas |
| | autoclaved: solvents, ethidium | Hall 126A). |
| | bromide, etc.* | 7/7 1 1 1 1 0 0 1 |
| Broken Glass: white/blue | non-contaminated broken glass, | When the box is ¾ full, taped |
| cardboard boxes in each | slides, cover slips, Pasteur | closed. Email |
| lab) | pipettes, etc. | facilities@Ursinus.edu to have the |
| | | box picked up. These boxes will |
| | | not be re-used. Dr. Gabel will give |
| G 1777 | • | you a replacement box. |
| General Waste: gray, | paper pipette wrappers, paper | Ursinus custodial staff will remove. |
| square plastic bins (in | towels, food containers, foil, | |
| each lab) | plastic wrap, packaging | |
| Do annala Dinana | materials, etc. | Y |
| Recycle Bins: green | Plastics, mixed paper, metals, | Various campus organizations will |
| plastic bins (in hallways) | and glass. See UC sustainable | remove. |
| | website for more information. | |

Cardboard – break down and place next to the closest green recycling bin. For large quantities, contact Facilities at <u>Facilities@ursinus.edu</u>.

Lamps containing mercury or other heavy metal should be brought to Dr. Gabel for recycling.
